Vertical Conveyor Unit

Our Vertical Conveyor Unit is intended for vertical transport of single packages.

The unit can either be installed with a separate electrical cabinet or with an electrical cabinet integrated in the conveyor system. The electrical connections are intended to 3x230/400V.

The stand is made of aluminium and the casing and the motor shelf of grounded stainless steel. The motor is a Nord/Gear drive motor.

The capacity, range of lifting etc are dependent of goods. Please contact Fredriksons for detailed information.
